

Difference between List, Tuple, Set & Dictionary

Data Structure	Mutable/Immutable	Ordered/Unordered	Allows Duplicates	Symbol
List	It is mutable	It is ordered	It allows duplicates	[]
Tuple	It is not mutable	It is ordered	It allows duplicates	()
Set	It is mutable	It is unordered	It does not allow duplicates	{ }
Dictionary	It is mutable (only for keys)	It is ordered (Python 3.7+)	It does not allow duplicate keys but allows values	{ }
